

## Stepan Company Donates Hand Sanitizer and Disinfectant to First Responders in Coronavirus Fight

April 16, 2020

NORTHFIELD, Ill., April 16, 2020 /PRNewswire/ -- Stepan Company (NYSE: SCL), a major manufacturer of specialty chemicals, has recently made donations of hand sanitizer and spray disinfectants to Chicagoland first responders on the frontlines of the COVID-19 crisis.

Stepan's plant near Joliet, IL has donated 800 gallons of hand sanitizer and several hundred gallons of disinfecting spray solution to the Chicago Police and Fire departments as well as numerous departments in the Chicago suburbs. As a specialty chemical maker, Stepan was able to produce and access necessary raw materials and used its R&D and Pilot Plant capabilities to formulate and produce the sanitizing and disinfectant products. While Stepan continues to manufacture cleaning and disinfecting products, including nonionic surfactants and biocides, for customers that are essential in the fight against COVID-19, it recognized the urgent need of Chicagoland first responders for sanitation supplies as they continue to serve and protect our local communities.

F. Quinn Stepan, Jr., Chairman, President and CEO of Stepan, said, "As a Chicagoland company, Stepan Company and its employees are proud to assist our first responders and donate products that help ensure they have the hand sanitizer and spray disinfectant needed to protect themselves from COVID-19 and to keep our communities safe. The health and safety of our community members and employees is – and always has been – our top priority."

Other Stepan facilities across the globe have also donated to their local communities to support those most in need during this crisis. Stepan's facility in Brzeg Dolny, Poland donated monies to a local hospital, designated for buying cleaning products, disinfectants, masks and gloves to help medical personnel protect themselves from the virus. Stepan's team in Voreppe, France donated its stock of 200 face masks to hospitals in nearby Grenoble, to help health care workers maintain their safety in the fight against COVID-19. Stepan Brazil donated disinfectant to the Government of Sao Paulo to aid the fight against the virus. Other Stepan facilities across the globe continue seeking new ways to support their local communities as well.

"We are all in this fight together and we continue to encourage our teams across the globe to take creative and meaningful steps to support their communities. This is just a small way that we can say 'thank you' for the work they're doing to keep all of us safe during this difficult time," said F. Quinn Stepan, Jr.

### **Corporate Profile**

Stepan Company is a major manufacturer of specialty and intermediate chemicals used in a broad range of industries. Stepan is a leading merchant producer of surfactants, which are the key ingredients in consumer and industrial cleaning compounds and in agricultural and oilfield solutions. The Company is also a leading supplier of polyurethane polyols used in the expanding thermal insulation market, and CASE (Coatings, Adhesives, Sealants, and Elastomers) industries.

Headquartered in Northfield, Illinois, Stepan utilizes a network of modern production facilities located in North and South America, Europe and Asia.

The Company's common stock is traded on the New York Stock Exchange (NYSE) under the symbol SCL. For more information about Stepan Company please visit the Company online at [www.stepan.com](http://www.stepan.com)
