## Stepan Reports Record Second Quarter Results and Record First Half Earnings

July 28, 2021

NORTHFIELD, III., July 28, 2021 /PRNewswire/ -- Stepan Company (NYSE: SCL) today reported:

## Second Quarter Highlights

- Reported net income was a record $\$ 43.3$ million, or $\$ 1.85$ per diluted share, versus $\$ 35.7$ million, or $\$ 1.54$ per diluted share, in the prior year. Adjusted net income* was a second quarter record $\$ 42.2$ million, or $\$ 1.81$ per diluted share, versus $\$ 38.3$ million, or $\$ 1.65$ per diluted share, in the prior year. Total Company sales volume increased $5 \%$ versus the prior year.
- Surfactant operating income was $\$ 45.9$ million versus $\$ 48.5$ million in the prior year. This decrease was largely attributable to higher North American supply chain costs due to inflationary pressures and higher planned maintenance costs. Global Surfactant sales volume decreased 6\% but the associated impact was more than offset by improved margins, product and customer mix. Consumer product sales volume was negatively impacted by feedstock supply issues following the first quarter 2021 severe weather in Texas, customer inventory rebalancing efforts and lower demand for cleaning products versus the pandemic peak in 2020. Higher demand for products sold into our institutional cleaning and functional product end markets partially offset the above.
- Polymer operating income was $\$ 23.0$ million versus $\$ 15.5$ million in the prior year. This increase was primarily attributable to a $44 \%$ increase in global Polymer sales volume. Global rigid polyol volume was up $41 \%$ versus the prior year largely due to the INVISTA polyester polyol acquisition. Global rigid polyol volume, excluding the INVISTA acquisition, was up $7 \%$ versus the prior year. Higher demand within the phthalic anhydride and specialty polyols businesses also contributed to the sales volume growth.
- Specialty Product operating income was $\$ 7.0$ million versus $\$ 3.2$ million in the prior year. This increase was primarily attributable to order timing differences within our food and flavor business and improved margins within our medium chain triglycerides (MCT) product line.
- The effect of foreign currency translation positively impacted net sales by $4 \%$ and net income by $\$ 1.4$ million, or $\$ 0.06$ per diluted share, versus the prior year.

## First Half Highlights

- Reported net income was a record $\$ 83.9$ million, or $\$ 3.59$ per diluted share, versus $\$ 63.3$ million, or $\$ 2.72$ per diluted share, in the prior year. Adjusted net income* was a record $\$ 84.6$ million, or $\$ 3.62$ per diluted share, versus $\$ 62.5$ million, or $\$ 2.69$ per diluted share, in the prior year. The prior year first half results were negatively impacted by the first quarter 2020 Millsdale, IL plant power outage. Total Company sales volume was up $6 \%$ compared to the first six months of 2020. A 39\% increase in global Polymer sales volume was partially offset by a 3\% decrease in global Surfactant sales volume.

## Summary of Second Quarter Adjusted Net Income Items

Adjusted net income excludes non-operational deferred compensation income/expense, cash-settled SARs income/expense and other significant and infrequent or non-recurring items.

- Deferred Compensation: The current year second quarter reported net income includes $\$ 1.1$ million of after-tax income versus $\$ 1.9$ million of after-tax expense in the prior year.
- Cash-Settled SARs: These management incentive instruments provide cash to participants equal to the appreciation on the price of specified shares of Company stock over a specified period of time. Because income or expense is recognized merely on the movement in the price of Company stock it has been excluded, similar to deferred compensation, to arrive at adjusted net income. The current year second quarter includes $\$ 0.1$ million of after-tax income versus $\$ 0.5$ million of after-tax expense in the prior year.
- Business Restructuring: The current year second quarter includes $\$ 0.1$ million of after-tax decommissioning expense related to the Company's Canadian plant closure versus $\$ 0.2$ million of after-tax expense in the prior year.

## Percentage Change in Net Sales

Net sales in the second quarter of 2021 increased $29 \%$ year-over-year due to higher selling prices, mainly due to improved product and customer mix and the pass-through of higher raw material costs, a $5 \%$ increase in global sales volume and the favorable impact of foreign currency translation. The increase in sales volume was predominantly due to Polymer sales growth of $44 \%$.

## Segment Results

| (\$ in thousands) | Three Months Ended June 30 |  |  | Six Months Ended June 30 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Change |  |  | \% <br> Change |
|  | 2021 | 2020 |  | 2021 | 2020 |  |
| Net Sales |  |  |  |  |  |  |
| Surfactants | \$384,00 | 332,335 | 16\%\$ | 754,93 | 659,406 | 14\% |
| Polymers | \$190,538 | 112,409 | 70\%\$ | 340,92 | 218,900 | 56\% |
| Specialty Products | \$ 20,97 | 15,805 | 33\%\$ | 37,39 | 32,230 | 16\% |
| Total Net Sales | \$595,51 | 460,549 | 29\% ${ }^{\text {\$ }}$ | ,133,25 | 910,536 | 24\% |

- Surfactant net sales were $\$ 384.0$ million for the quarter, a $16 \%$ increase versus the prior year. Selling prices were up $17 \%$ primarily due to improved product and customer mix as well as the pass-through of higher raw material costs. The effect of foreign currency translation positively impacted net sales by $5 \%$. Sales volume in the second quarter of 2021 decreased $6 \%$ year-over-year. Most of this decrease reflects lower sales volume into the North American consumer product end markets as a result of feedstock supply issues, customer inventory rebalancing efforts and lower demand for consumer cleaning, disinfection and personal wash products versus the pandemic peak in 2020. Higher demand for products sold into our institutional cleaning and functional product end markets partially offset the above. Surfactant operating income for the quarter decreased $\$ 2.6$ million, or $5 \%$, versus the prior year quarter primarily due higher North American supply chain costs related to inflationary pressures and planned higher maintenance costs. Improved margins, product and customer mix partially offset the impact of the $6 \%$ decline in global sales volume and higher supply chain costs. Latin American operating results benefited from a $\$ 2.1$ million VAT tax recovery in the current year quarter.
- Polymer net sales were $\$ 190.5$ million for the quarter, a $70 \%$ increase versus the prior year. Sales volume increased $44 \%$ in the quarter primarily due to $41 \%$ growth in rigid polyol demand. Global rigid polyol volume, excluding the INVISTA acquisition, was up $7 \%$ versus the prior year. Higher demand within the phthalic anhydride and specialty polyols businesses also contributed to the sales volume growth. Selling prices increased $21 \%$ and the translation impact of a weaker U.S. dollar positively increased net sales by $5 \%$. Polymer operating income increased $\$ 7.5$ million, or $48 \%$, primarily due to the strong sales volume growth.
- Specialty Product net sales were $\$ 21.0$ million for the quarter, up $33 \%$ versus the prior year. Sales volume was up $17 \%$ between quarters and operating income increased $\$ 3.8$ million, or $116 \%$. The operating income increase was primarily attributable to order timing differences within our food and flavor business and improved margins within our medium chain triglycerides product line.

## Corporate Expenses

| (\$ in thousands) | Three Months Ended June 30 |  |  | Six Months Ended June 30 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | \% |  |  | \% |
|  | 2021 | 2020 | Change | 2021 | 2020 | Change |
| Total Corporate Expenses | \$19,241\$22,633 |  | (15)\%\$39,121\$30,285 |  |  | 29\% |
| Less: |  |  |  |  |  |  |
| Deferred Compensation | \$ (958)\$(6,464) |  | (85)\%\$(3,652)\$ |  | \$ 859 | NM |
| Business Restructuring | \$ (114)\$ (225) |  | (49)\%\$ (195)\$ (582) |  |  | (66)\% |
| Adjusted Corporate Expens | \$18,169\$15,944 |  | 14\% $\$ 35,274 \$ 30,562$ |  |  | 15\% |

* See Table III for a discussion of deferred compensation plan accounting.
- Corporate expenses, excluding deferred compensation and business restructuring costs, increased $\$ 2.2$ million, or $14 \%$, versus the prior year quarter. The quarterly increase was primarily due to the non-recurrence of a sales and use tax refund received in the second quarter of 2020 combined with higher acquisition-related expenses, insurance premiums and cloud application costs in 2021.

## Income Taxes

The Company's effective tax rate was $24.4 \%$ for the first half of 2021 versus $23.9 \%$ for the first half of 2020 . This year-over-year increase was primarily attributable to a less favorable geographical mix of income in the first half of 2021 versus 2020, partially offset by higher tax benefits derived from stock-based compensation awards exercised or distributed in the first half of 2021 versus 2020.

## Shareholder Return

The Company paid $\$ 6.9$ million of dividends to shareholders and repurchased $\$ 9.9$ million of Company stock in the second quarter of 2021. During the first six months of 2021 the Company paid $\$ 13.7$ million of dividends and repurchased $\$ 10.9$ million of Company stock. The Company has 93,829 shares remaining under its Board of Directors' share repurchase authorization. The Company has increased its dividend on the Company's common stock for 53 consecutive years.

## Selected Balance Sheet Information

The Company's net debt level increased $\$ 14.1$ million versus the first quarter of 2021 while the net debt ratio increased from $9 \%$ to $10 \%$. The increase in net debt reflects a $\$ 23.6$ million decrease in cash and a $\$ 9.5$ million decrease in debt. The decrease in cash was driven by scheduled debt repayments in June 2021 and higher working capital requirements.

| (\$ in millions) | 6/30/21 | 3/31/21 | 12/31/20 |
| :---: | :---: | :---: | :---: |
| Net Debt |  |  |  |
| Total Debt | \$ 238.9 | \$ 248.4 | \$ 198.7 |
| Cash | 127.1 | 150.7 | 349.9 |
| Net Debt | \$ 111.8 | \$ 97.7 | \$(151.2) |
| Equity | 1,048.8 | 1,002.3 | 986.7 |
| Net Debt + Equity | \$1,160.6 | \$1,100.0 | \$ 835.5 |
| Net Debt / (Net Debt | 10\% | 9 | -18\% |

The major working capital components were:
( $\$$ in millions) $\quad 6 / 30 / 21$ 3/31/21 12/31/20
Net Receivables $\$ 391.7 \$ 380.6 \$ 301.3$
$\begin{array}{llll}\text { Inventories } & 266.1 & 235.1 & 218.8\end{array}$
Accounts Payable_(286.9) (264.2) (236.8)
Total \$ 370.9\$ 351.5\$ 283.3
Capital spending was $\$ 37.3$ million during the quarter and $\$ 74.9$ million during the first half of 2021. This compares to $\$ 21.5$ million and $\$ 54.7$ million, respectively, in the prior year. For the full year, capital expenditures are expected to be in the range of $\$ 150$ million to $\$ 170$ million.

## Outlook

"The Company delivered record earnings in the first half of 2021," said F. Quinn Stepan, Jr., Chairman and Chief Executive Officer. "Looking forward, we believe our Surfactant volumes in the North American consumer product end markets will be challenged versus peak pandemic levels in 2020. While we believe institutional cleaning volume will continue to grow versus prior year, we do not believe it will compensate for lower consumer consumption of cleaning, disinfection and personal wash products. We anticipate that demand for surfactants within the agricultural and oilfield markets will benefit from higher agricultural and commodity prices and improve versus 2020. Global demand for rigid polyols continues to recover from pandemic-related delays and cancellations of re-roofing and new construction projects. This recovery, combined with our first quarter 2021 acquisition of INVISTA's aromatic polyester polyol business, should position our Polymer business to deliver growth versus prior year. We believe the long-term prospects for rigid polyols remain attractive as energy conservation efforts and more stringent building codes are expected to continue. We anticipate our Specialty Product business results will improve slightly year-over-year. Despite continued raw material price increases, supply chain inflationary pressures and planned second half maintenance expenses, we remain cautiously optimistic about the remainder of the year."

## Conference Call

Stepan Company will host a conference call to discuss the second quarter results at 10:00 a.m. ET (9:00 a.m. CT) on July 28, 2021. The call can be accessed by phone and webcast. Telephone access will be available by dialing +1 (800) $584-2088$, and the webcast can be accessed through the Investors/Conference Calls page at www.stepan.com. A webcast replay of the conference call will be available at the same location shortly after the call.

## Supporting Slides

Slides supporting this press release will be made available at www.stepan.com through the Investors/Presentations page at approximately the same time as this press release is issued.

## Corporate Profile

Stepan Company is a major manufacturer of specialty and intermediate chemicals used in a broad range of industries. Stepan is a leading merchant producer of surfactants, which are the key ingredients in consumer and industrial cleaning and disinfection compounds and in agricultural and oilfield solutions. The Company is also a leading supplier of polyurethane polyols used in the expanding thermal insulation market, and CASE (Coatings, Adhesives, Sealants, and Elastomers) industries.

Headquartered in Northfield, Illinois, Stepan utilizes a network of modern production facilities located in North and South America, Europe and Asia.
The Company's common stock is traded on the New York Stock Exchange (NYSE) under the symbol SCL. For more information about Stepan Company please visit the Company online at www.stepan.com

More information about Stepan's sustainability program can be found on the Sustainability page at www.stepan.com.

## Deferred Compensation Plans

Table III

The full effect of deferred compensation plans on quarterly pre-tax income was $\$ 1.4$ million of income versus $\$ 2.6$ million of expense in the prior year. The year to date impact was $\$ 0.6$ million of expense versus $\$ 1.2$ million of income in the prior year. The accounting for deferred compensation plans results in operating income when the price of Stepan Company common stock or mutual funds held in the plan fall and expense when they rise. The Company also recognizes the change in value of mutual funds as investment income or loss. The quarter end market prices of Company common stock were as follows:

Stepan Company

| 2021 |  |  |  |  |  | 2020 |  |  |  |  |  |  |  |  |

## Effects of Foreign Currency Translation

The Company's foreign subsidiaries transact business and report financial results in their respective local currencies. As a result, foreign subsidiary income statements are translated into U.S. dollars at average foreign exchange rates appropriate for the reporting period. Because foreign exchange rates fluctuate against the U.S. dollar over time, foreign currency translation affects period-to-period comparisons of financial statement items (i.e., because foreign exchange rates fluctuate, similar period-to-period local currency results for a foreign subsidiary may translate into different U.S. dollar results). Below is a table that presents the impact that foreign currency translation had on the changes in consolidated net sales and various income line items for the three and six month periods ending June 30, 2021 as compared to 2020:

| (\$ in millions) | Three Months Ended June 30 | Increase | Increase Due to Foreign Currency Translation | Six Months Ended June 30 | Increase | Increase Due to Foreign Currency Translation |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

[^0]:    *Adjusted net income is a non-GAAP measure which excludes deferred compensation income/expense, cash-settled stock appreciation rights (SARs) income/expense, as well as other significant and infrequent/non-recurring items. See Table II for reconciliations of non-GAAP adjusted net income and earnings per diluted share.
    "The Company had a solid first half of 2021 and delivered record year-to-date results. Both adjusted net income and adjusted EPS were up 35\% versus the first half of 2020 which was negatively impact by the Millsdale plant outage," said F. Quinn Stepan, Jr., Chairman and Chief Executive Officer. "For the quarter, Surfactant operating income was down 5\% largely due to higher North American supply chain costs driven by inflationary pressures and higher planned maintenance. A 6\% decline in global Surfactant sales volume, mostly related to our consumer product business, was more than offset by improved margins, product and customer mix. Our Polymer operating income was up $48 \%$ on the strength of $44 \%$ global sales volume growth. The Polymer growth was driven by both the INVISTA acquisition and organic market growth. Our Specialty Product business results were up due to higher volume and improved margins."
