Directors' Fees

Directors who are not also Officers of the Company are currently being paid an annual Director's fee of \$41,000 plus \$1,450 for attendance at each Board of Directors meeting, Audit Committee meeting and Compensation and Development Committee meeting. No such fees are paid to Directors who are also Officers of the Company. Under the Company's 1965 Directors' Deferred Compensation Plan, the Company has entered into agreements with certain of its non-employee Directors under which a Director, at his election, may defer receipt of his Director's fees and such deferred fees are (i) used to purchase shares of the Company's Common Stock and such shares and future distributions thereon are deposited in the Director's account, (ii) credited to the Stepan Company Deferred Income Account, (iii) used to purchase shares of selected publicly-traded mutual funds or (iv) divided equally between the purchase of shares of the Company's Common Stock, the Stepan Company Deferred Income Account and shares of selected publicly-traded mutual funds. Funds in the Stepan Company Deferred Income Account may not be used to purchase shares of the Company's Common Stock, but earn interest at the same rate as bonds with a maturity of ten years. At the election of a Director, deferred payments may be made in shares of Stepan Common Stock or cash based on the fair market value of the Director's account at distribution, which commences, depending upon the terms of the agreement with the particular Director, upon retirement as a Director or from active or professional life or at any time between ages 60 to 70, with payments being made periodically over a period of five to ten years.

In addition, the 2000 Stock Option Plan provides for the granting of a stock option, as of the date of the annual meeting of the Company's stockholders in calendar years 2002, 2004, 2006 and 2008 to each non-employee Director serving as a Director of the Company on such date to purchase the number of shares of Common Stock determined by dividing the non-employee Director's annual retainer fee for the applicable year by the fair market value of a share of Common Stock on the date of the grant. The exercise price of each share of Common Stock under a stock option granted to a non-employee Director will be equal to the fair market value of a share of Common Stock on the date of the grant or, if greater, par value. The exercise price may be paid, upon exercise, in cash, in shares of Common Stock or in any combination of cash or Common Stock as the non-employee Director completes two continuous years of service as a non-employee Director following the date of the grant, but not more than ten years after the date of the grant. The 2000 Stock Option Plan sets forth restrictions upon the exercise of stock options by non-employee Directors upon termination of their service by reason of death, disability, retirement or otherwise.

The Company has a non-qualified, non-funded retirement income plan for the benefit of the non-employee Directors. The plan provides for a benefit after ten years of service of 50 percent of the annual Director's fee at retirement plus two percent for each year served on the Board in excess of ten years with a maximum 25 years credit in excess of ten years. Benefits commence at 70 years of age.

Retirement Plans

The Company has a non-contributory retirement plan (the "Retirement Plan") covering all salaried employees that provides for a maximum pension benefit equal to 50 percent of the employee's average base compensation, reduced by an amount equal to 50 percent of the employee's primary Social Security benefit at age 65, for employees with 30 years of service who retire at or after age 63. Base compensation is computed on the average base salary for the five highest consecutive earnings years during the last 15 years prior to retirement. The amount of salary taken into account for any year is subject to certain limitations contained in the Internal Revenue Code (\$170,000 in 2001, to be indexed in future years for inflation in accordance with IRS regulations, and subject to certain transition rules for prior years in which greater amounts of salary were permitted to be taken into account). The Company also has a non-qualified supplemental retirement plan (the "SERP") for designated executives. The SERP replaces benefits under the qualified plan that would otherwise be denied due to Internal Revenue Code limits on qualified plan benefits. The following table sets forth the maximum annual retirement income payable under the Retirement Plan and the SERP, prior to reduction by an amount equal to 50 percent of projected age 65 Social Security benefits, at age 63 for indicated salaries and lengths of service.

Base Salary	Years of Service

AUDIT COMMITTEE

REPORT OF THE COMPENSATION AND DEVELOPMENT COMMITTEE

The Company's executive compensation program is administered by the Compensation and Development Committee of the Board of Directors, which is composed of the following non-employee Directors: Messrs. Cadieux, Grojean, Potter and P. Stepan. During 2001, Mr. Grojean served as Chairman for the Committee. All issues pertaining to corporate officer compensation are submitted to the Committee for approval prior to implementation. The Committee, as requested, reviews non-officer compensation for those reporting to the Chief Executive Officer or the President.

The Company's guiding philosophy in executive compensation is that:

- (a) The base pay of executive officers should reflect job responsibilities and performance, and should be competitive internally, to like or comparable positions, as well as externally, to like or comparable positions within the chemical industry. The Company uses job evaluation and measurement techniques consistent with contemporary industrial practice. Compensation policy is established in accordance with data supplied by Watson Wyatt, an independent compensation consulting firm, for base pay trends and data in the chemical industry.

Within specific position salary ranges, the base salary level for each executive officer is determined in accordance with performance standards set by Company policy and in compliance with position in the salary range and the merit increase guidelines published annually for all salaried employees. A separate determination is made when an executive officer is promoted or assumes additional responsibilities, which may result in an increase in excess of the merit increase guideline.

During 2001, merit increases for executive officers approximated the Company's merit guideline. Merit increases averaged 4.1%, while one officer's increase was 9.4% to accommodate a promotion and progress into his salary range.

The Chairman and Chief Executive Officer's (CEO) salary range is determined by the same process and procedures as those of other executive officers. The Committee, in accordance with the salary merit increase guidelines, adjusts the CEO's salary. During 2001, the CEO's base earnings increased by 4.0% over the prior year.

- (b) The incentive pay of executive officers is directly related to Company performance and, in the case of all positions reporting to the CEO or the President, against a set of annual, individual performance targets. The Committee establishes Company incentive targets at the beginning of each calendar year. As applicable, individual performance targets are also established at the beginning of each calendar year. In years where the Company performs well against its economic targets, significant performance bonuses may be earned; if targets are not achieved, incentive bonuses are proportionately lower or may not be paid at all.

All executive officers have a minimum of 25% of their incentive bonus based on the overall performance of the Company, measured against targets for (a) Net Income and (b) Return on Invested Capital. The Committee approves these targets and percents for each calendar year. The typical arrangement is that half of the total is measured against Net Income targets and half against targets for Corporate Return on Invested Capital.

In 2001, the Net Income result for the Company was below the Marginal level of the incentive target as set by the Committee. As a result, no incentive awards were made to executives for this factor for 2001.

In 2001, the Return on Invested Capital result for the Company was below the Marginal level of the incentive target as set by the Committee. As a result, no incentive awards were made to executives for this factor for 2001.

The remainder of each individual executive officer's incentive bonus is based on performance measures set by mutual agreement between the executive and the CEO or the President. During 2001, the average incentive award for executive officers under this part of the plan was 11.2%.

The CEO's and the President's incentive compensation are determined solely by the annual financial results of the Company. For 2001, no incentive bonus was paid to the CEO or the President.

- (c) Executive officers receive stock option grants on a regular schedule in order to promote retention of proven executives, to recognize outstanding job performance and to encourage a focus on corporate performance results, which in turn enhance the likelihood of increases in the value of Common Stock.

Stock options are granted in even-numbered years to those executives and executive officers approved by the Committee and identified as having significant impact on the financial results and economic success and well-being of the Company. The Committee approves all stock option awards. The size of stock option awards is based on two factors: job performance and the potential of each executive or executive officer to impact the costs, sales and/or profitability of the Company that may thus contribute to the value of the Common Stock held by stockholders.

In addition, stock options are granted to executive officers at other times based on other factors that the Committee determines to be relevant. Such actions are occasioned by election, promotion or extraordinary job performance results. During 2001, stock options were granted to one executive officer due to his election.

- (d) The Board of Directors believes that ownership of Company stock by executives and executive officers is desirable in order to focus both short and long-term decision making on the best interests of the Company. In 2001, the Committee maintained the following policy guidelines:

1. Executive officers of the Company should own a minimum of Company stock approximating two times their annual base salary paid by the Company; and
2. Other executives (defined as those who are Level Four participants in the Company Management Incentive Plan) should own a minimum of Company stock approximating one times their annual base salary paid by the Company.

Stock shares may be owned directly, through the Company Stock Purchase Plan or the Company Employee Stock Ownership Plan, or in shares held in a deferred Management Incentive Plan account. Stock options not exercised are not considered "owned stock" for the purpose of this policy.

The Company realizes that time must be allowed to realize this targeted goal. In 2000, the Committee approved a five-year time frame for executives and executive officers to achieve such ownership.

- (e) Under current levels of compensation and because certain plans, including grants under stock option plans prior to May 6, 1997, are "grandfathered" under current IRS regulations, the Company is unlikely to be affected by the one million dollar limit set forth in Section 162(m) of the Internal Revenue Code ("the Code") on the deductibility of compensation for purposes of calculating federal income tax. However, with respect to future years, the Committee intends to consider the application of Section 162(m) of the Code to the Company's compensation plans and practices, and will consider possible changes thereto that may be necessary to qualify future compensation paid to executive officers for deductibility under Section 162(m) of the Code to the extent that such changes would be consistent with the Company's compensation philosophy and in the best interests of the Company.

ACCOUNTING AND AUDITING MATTERS

Upon the recommendation of its Audit Committee in 2001, the Board of Directors selected and employed Arthur Andersen LLP ("Andersen") as the Company's independent public accountants to audit the financial statements of the Company and its subsidiaries for fiscal year 2001. Andersen's report dated February 11, 2002, on the financial statements of the Company and its subsidiaries is included in the Company's Annual Report on Form 10-K for fiscal year 2001. The Company received a letter from Andersen dated March 18, 2002, stating that Andersen represents that the 2001 audit of the Company was subject to Andersen's quality control system for the U.S. accounting and auditing practice to provide reasonable assurance that the engagement was conducted in compliance with professional standards, that there was appropriate continuity of Andersen personnel working on the audit, availability of national office consultation and availability of personnel at foreign affiliates of Andersen to conduct the relevant portions of the audit.

Upon the recommendation of its Audit Committee on February 11, 2002, the Board of Directors appointed Andersen as independent public accountants for the Company and its subsidiaries for fiscal year 2002. In March 2002, following completion of the 2001 audit, the Company, under the direction of members of the Audit Committee, commenced an evaluation of the retention of Andersen as the Company's independent public accountant to audit the financial statements of the Company and its subsidiaries for fiscal year 2002. As of March 25, 2002, the Company was continuing to actively evaluate potential candidates for independent auditors for the 2002 fiscal year. The Audit Committee and the Board of Directors expect to make a determination on this matter prior to the Company's Annual Meeting of Stockholders.

Representatives of Andersen are expected to be present at the Annual Meeting of Stockholders with the opportunity to make a statement, if they desire to do so, and to be available to respond to appropriate questions from the stockholders.

Audit Fees

The aggregate fees billed by the Company's independent auditor for professional services rendered in connection with the audit of the Company's financial statements included in the Company's Annual Report on Form 10-K for fiscal year 2001, as well as for the review of the Company's financial statements included in the Company's Quarterly Reports on Form 10-Q during the 2001 fiscal year, totaled \$453,000.

Financial Information Systems Design and Implementation Fees

No fees were billed to the Company by the Company's independent auditor for professional services related to financial information systems design and implementation in fiscal year 2001.

All Other Fees

The aggregate fees billed by the Company's independent auditor for professional services during fiscal year 2001, other than those described above, totaled \$544,200. These services were provided for various miscellaneous matters, including \$179,000 for internal audit fees.

In connection with the audits for the two most recent fiscal years and through March 25, 2002, there have been no disagreements with Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Andersen, would have caused Andersen to make reference thereto in connection with its report on the financial statements of the Company for such time periods. Also during those time periods, there have been no "reportable events," as such term is used in Item 304(a)(1)(v) of Regulation S-K.

Andersen's reports on the financial statements of the Company for the last two years neither contained an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.
